About Me

Software development has never been "just a job" for me, it has often been an engaging challenge to continually learn and improve my skills in creating high quality software. It has grown to be a full-fledged passion that only gets more exciting and better as months go by. You will find a link to my GitHub profile that showcases my skills and general background with regards to software development.

Experience

Freelance Software Engineer (Present)

Fiverr. Freelance (Python, Django)

Software Developer Internship (Apr 2022- May 2022)

Side Hustle Internship (Remote)

Worked on capstone projects with fellow team members.
Networked with fellow minded people and helped review fellow developer's work especially with capstone projects.
Improve my Software development skills.

Url-shortner

(https://github.com/wilfex81/url-shortner)

The aim of the project was to come up with an app that can help shorten URLs. The project helped learn how Django works, and how to go about it.

Django_rest_framework

(https://github.com/wilfex81/rest_framework)

In order to understand how rest framework works, especially when it comes to serialization, and working with views in Django, I decided to build this app.

Education

ALX	*Software Engineering*	Software Engineering
Africa Nazarene University	*Bachelor of Education Arts*	English Literature
